

9TH ANNUAL

PERINATAL MENTAL HEALTH CONFERENCE

JUNE 23-24 | BILLINGS, MT

January 15, 2026

Happy New Year –

As we begin 2026, the team at **Healthy Mothers, Healthy Babies – The Montana Coalition** is proud to share that planning is underway for our **9th Annual Perinatal Mental Health Conference (PMHC)** - and we invite you to partner with us in making it possible.

Each year, the PMHC brings together hundreds of perinatal mental health professionals, advocates, and community leaders from across Montana and beyond. In 2025, more than **335 healthcare professionals** from Montana, the Northwest, and Canada attended. In 2026, we are excited to host the conference in **Billings on June 23–24**, expanding access and engagement for professionals in Eastern Montana and Wyoming.

Your support is critical. The need for perinatal mental health care in Montana is urgent:

- 1 in 5 mothers and 1 in 10 fathers experience a mental health challenge in the first year after becoming a parent.
- Postpartum depression is a significant adverse childhood experience (ACE), affecting lifelong health and development.
- Suicide and overdose are the leading causes of death for women in the year following childbirth.

Sponsoring the PMHC means investing in prevention, early intervention, and a stronger system of care for families during one of life's most vulnerable transitions. Your partnership helps ensure providers are trained, connected, and equipped to support parents and when parents are supported, infants thrive.

We hope you will join us in supporting Montana's 9th Annual Perinatal Mental Health Conference and help ensure Montana remains the last best place to raise a family.

9TH ANNUAL

PERINATAL MENTAL HEALTH CONFERENCE

JUNE 23-24 | BILLINGS, MT

PAST ATTENDEE TESTIMONIALS:

There is no other conference that is this warm and welcoming and provides such useful factual information for perinatal mental health.

- Dawn Birk, Ph.D.

As a dietitian, the Perinatal Mental Health Conference has been a great yearly opportunity for me to learn more about the mental health side of the perinatal experience and how to better serve my perinatal clients through connections to other organizations and providers.

- Margaret Elliott, MS/RD

I've been lucky enough to attend the PMHC conference several times over the years. It has deepened my knowledge and strengthened my skills as a provider, but more importantly, it has fueled my sense of agency and fed my passion for advocacy.

- Janie Quilici, LCSW, LAC, PMH-C

This was a wonderful conference and as a home visiting nurse for antenatal and postpartum moms, I found it very helpful in increasing my knowledge about perinatal mental health.

- 2025 Conference Attendee
